

Artinii[®] Pro

ARTINII CINEMA PLAYER

DOWNLOAD – LOG IN – DOWNLOAD THE FILM – MANAGING THE FILM – NAVIGATION PANEL – FILM DETAIL – SCREENING
– PLAYLISTS – SETTINGS – PLAYBACK SETTINGS

STEP 1 DOWNLOAD ARTINII CINEMA PLAYER

[Download for macOS](#)
[Download for Windows](#)

The screenshot shows the Artinii Pro website's Cinema Player download page. The top navigation bar includes the Artinii Pro logo, menu items for ABOUT, HELP & SUPPORT, and MANAGE/LOGIN, a yellow 'Download Player' button, and a 'REGISTER' button with a right-pointing arrow. The main heading is 'Artinii Cinema Player'. Below it are two tabs: 'Cinema' (active) and 'Delivery'. A paragraph describes the Artinii Cinema Player (ACP) as a tool for AV content screening, highlighting its safety and ease of use. The page is divided into two sections for operating systems: Microsoft Windows and macOS. Each section lists system requirements (OS, CPU, RAM) and a yellow 'Download Player' button. To the right, there is an illustration of a laptop displaying the player interface, with a red mouse cursor pointing at it, and icons for a fingerprint scanner and a shield with a checkmark.

STEP 2 LOG IN

Then launch the app and log in with the same credentials as your Artinii account.

STEP 3 DOWNLOAD THE FILM

To download a film, click on the arrow under poster.

STEP 4 MANAGING THE FILM

Click on the three dots on a film card for quick actions for managing the film:

- **Play** – Starts the film immediately.
- **Play from specified position** – Begins playback from a user-defined timestamp.
- **Test film's playback** – Perform a technical test to ensure the film plays correctly.
- **Add to playlist** – Adds the selected film to a playlist for grouped playback.
- **Remove from disk** – Deletes the film file from your local storage (can be redownloaded later).
- **Show film details** – Opens a detailed page with all metadata about the film.
- **File properties** – Displays technical file information such as size, format, or resolution.

STEP 6

NAVIGATION PANEL

This is the primary navigation panel for the app:

- **Get more films** – Access the CinemaAnywhere.com film marketplace
- **Add local media** – Import and manage your own DRM-free local video files.
- **Create a media group** – Organize multiple films into curated thematic or event-specific groups.
- **Downloads** – Manage and monitor your current downloads.
- **Playlists** – View, create, and edit custom playlists of films.
- **Settings** – Configure app preferences, account details, playback behavior, etc.
- **Prepare screening** – Set up a cinema-like screening.
- **Advanced projection** – Access additional features for professional projection scenarios.
- **Test order/delivery** – Get test film file to check if your setup works correctly with DRM protected media.
- **Feedback & help** – Contact support or submit app feedback.

STEP 7 FILM DETAIL

Here you will find information about your order (your screening location, number of licenses purchased, audio track language, subtitles language).

The screenshot displays the 'Artinii Cinema Player' interface. On the left, the title 'Artinii Test Movie (en)' is shown with download status 'Ready to play', film size '9,86 MB', and item ID 'ab2fbb70'. Below this, license information is provided: 'Purchased licenses: 1', 'Remaining licenses: 1', and 'License valid until: 25.08.2025 11:37'. A vertical menu on the left includes options like 'Play film', 'Test film's playback', 'Add to playlist', 'Remove film from disk', 'Configure subtitles', and 'Advanced options' (with sub-options for 'Adjust film display size', 'File properties', and 'Refresh license').

The main area features the movie title 'Artinii Test Movie' and its metadata: 'Origin: KR', 'Duration: 112', and 'Year: 2019'. Below this, a table lists screening details:

Locality	Capacity	Purchased Licences	Audio Track	Subtitle Track
 Exhibitor Václavská nám., 110 00 Praha-Praha 1, Czechia	1000	1	English	N/A

SIDEBAR

This sidebar gives you full control over a selected film:

Here you can find information about the film – download status, file size, film ID, remaining number of licenses, license validity.

- **Play film** – Immediately starts playback.
- **Test film's playback** – Perform a technical test to ensure the film plays correctly.
- **Add to playlist** – Adds the current film to a selected playlist.
- **Remove film from disk** – Deletes the local copy of the film but keeps the license intact.
- **Configure subtitles** – Choose or add subtitle tracks if available.
- **Adjust film display size** – Scale film to fit your projection needs.
- **File properties** – Shows technical details of the film file.
- **Refresh license** – Manually renew the DRM license if playback issues occur.

The screenshot displays the Artinii Cinema Player interface. The main area shows the title "Artinii Test Movie" with details: Origin: KR, Duration: 112, Year: 2019. Below this is a table with columns: Locality, Capacity, Purchased Licences, Audio Track, and Subtitle Track. The table contains one row: Exhibitor (Václavské nám., 110 00 Praha-Praha 1, Czechia), Capacity: 1000, Purchased Licences: 1, Audio Track: English, Subtitle Track: N/A. On the left, a sidebar lists control options: Play film, Test film's playback, Add to playlist, Remove film from disk, Configure subtitles, and an Advanced options section containing Adjust film display size, File properties, and Refresh license. A red circle highlights the sidebar area.

Locality	Capacity	Purchased Licences	Audio Track	Subtitle Track
Exhibitor Václavské nám., 110 00 Praha-Praha 1, Czechia	1000	1	English	N/A

REQUEST EMERGENCY LICENSE

If problems occur during playback (e.g. power failure) and there are no licenses left for playback, an emergency license can be requested to complete the screening. Simply click on Request emergency license, write the reason for the request and it will be granted immediately. This function can be used even without an internet connection.

The screenshot displays the Artinii Cinema Player interface for a movie titled "Artinii Test Movie". The interface is dark-themed and includes a navigation menu on the left, a main content area, and a table of screening details.

Artinii Cinema Player

Artinii Test Movie (en)

Download status: Ready to play
Film size: 9,86 MB
Item ID: ab2fbb70
Purchased licenses: 1
Remaining licenses: 0
License valid until: 25.08.2025 11:37

Origin: KR
Duration: 112
Year: 2019

none

Locality	Capacity	Purchased Licences	Audio Track	Subtitle Track
Exhibitor Václavské nám., 110 00 Praha-Praha 1, Czechia	1000	1	English	N/A

The "Request emergency license" option in the left-hand menu is circled in red, with a red arrow pointing to it.

STEP 8 SCREENING

1 / Leave the library window on your computer desktop. This is the environment where you can control the playback of the film.

2 / The second window (which appears when you start the film or playlist) is for the audience. Drag it with your mouse to right side of the screen, where the window will then be displayed. Use the **Expand Screen** function for a quality film experience.

How to expand the screen?

Use this way: Start -> Settings -> System -> Display -> Multiple displays in the drop down list, select expand desktop.

[Find out more](#)

STEP 9 (OPTIONAL) PLAYLISTS

If you need to play another video before or after the film, use the Playlists feature. With the playlist function, you can prepare all the videos and the film you need for the screening.

The ability to change the order (by dragging the file up or down) will ensure that you can screen in the sequence you want.

To start screening using the playlist, click on Start playlist

STEP 10 SETTINGS

Click on Settings to view and set the player features.

This section houses all configurable app options:

- **User interface** – Change language, library layout, sorting.
- **Downloads and sync** – Manage synchronization intervals, storage locations.
- **Playback** – Configure keyboard shortcuts, subtitles, background of playback window.
- **Local media** – Configure engine used to play your media files and their look in the library.
- **Artinii account** – Manage your user profile and logout.
- **Advanced settings** – Enable advanced projection and perform other advanced tasks.
- **Help and diagnostics** – Tools for troubleshooting, running diagnostics.

PLAYBACK SETTINGS

- 1 / Start or pause playback
- 2 / Stop playback
- 3 / Move back
- 4 / Move forward
- 5 / Previous item
- 6 / Next item
- 7 / Enter full screen
- 8 / Subtitles and tracks
- 9 / Repeat playlist
- 10 / Change volume
- 11 / Film library
