Upload film to database   Film Upload Tutorial

1 Choose a film
2 Movie Detail
3 Film Upload
4 Uploading
5 Processing
6 Audio and subtitle tracks

Select the film file from your local disk

It is recommended to check that the uploaded film has necessary quality and your internet connection is high speed with minimum 2 Mbit/s. That is needed so the film upload is sufficiently fast and there are no risks of interruptions. After selecting the film, please do not close the browser. The upload process will take a few hours based on the size of the film and quality of the internet connection.

Drag and drop here or browse

+

Uploading formats

video
- (lossless or using common codecs)
- Full HD, 2K or 4K
- MP4, AVI, MOV

audio
- stereo sound or 5.1 sound (AC3 codec, i.e. channel order L, R, C, LFE, LS, RS)
- it is important to be in a single stream
- every language available needs to be in it's own audio stream
- multiple audio streams (for multiple languages) are supported
- e.g. 5.1 mix in single stream and stereo downmix in single stream

subtitles
- in a video container or added separately in step 6 or after the film activation
- make sure that the subtitles are in sync with the picture and sound

Back

*Editing film information will be possible after the upload process.

After logging in, you'll be redirected to your Dashboard, aka your workspace.

This is where you can start uploading your film via „Upload Film". The entire upload process consists of several straightforward steps and might take up to several hours.

Click on **Upload film** and continue.

START UPLOADING

In case you cannot find your film, try to type in another name under which it has been released.

Still can't find your film? **Input your film details manually**. The details will be reviewed by one of our operators before you'll be able to proceed. Normally, this process takes around 24h.

Click on the film you are uploading.

Upload film to database

① Find film
② Movie Detail
③ Upload film
④ Audio and subtitle tracks
⑤ Summary
⑥ Finish

Please, review the information we found

You will be able to edit the data and the images after you upload the film file.

Artinii Test Film

Director:
Actors:
Genres: Romance
Origin: Austria
Runtime: 14min
Year: 2012

Review the film information. Go over the data we have about your film (directors, actors, synopsis).

You will be able to edit this info after the film has been activated.

*You will be able to edit all the information related to your film after the upload process is finished.

Finished!
Ready for review
Now you have to review the audio & subtitle tracks.
Review

When you select and confirm your film file in your browser, the upload process starts.

After the film file has been uploaded, the film will be automatically processed. This may take up to several hours.

If you close this browser window, you can finish the upload process later after visiting the "**My films**" section and switching to the film detail.

Once the processing is completed, your next step will be to check and tag the audio track(s) and subtitles.
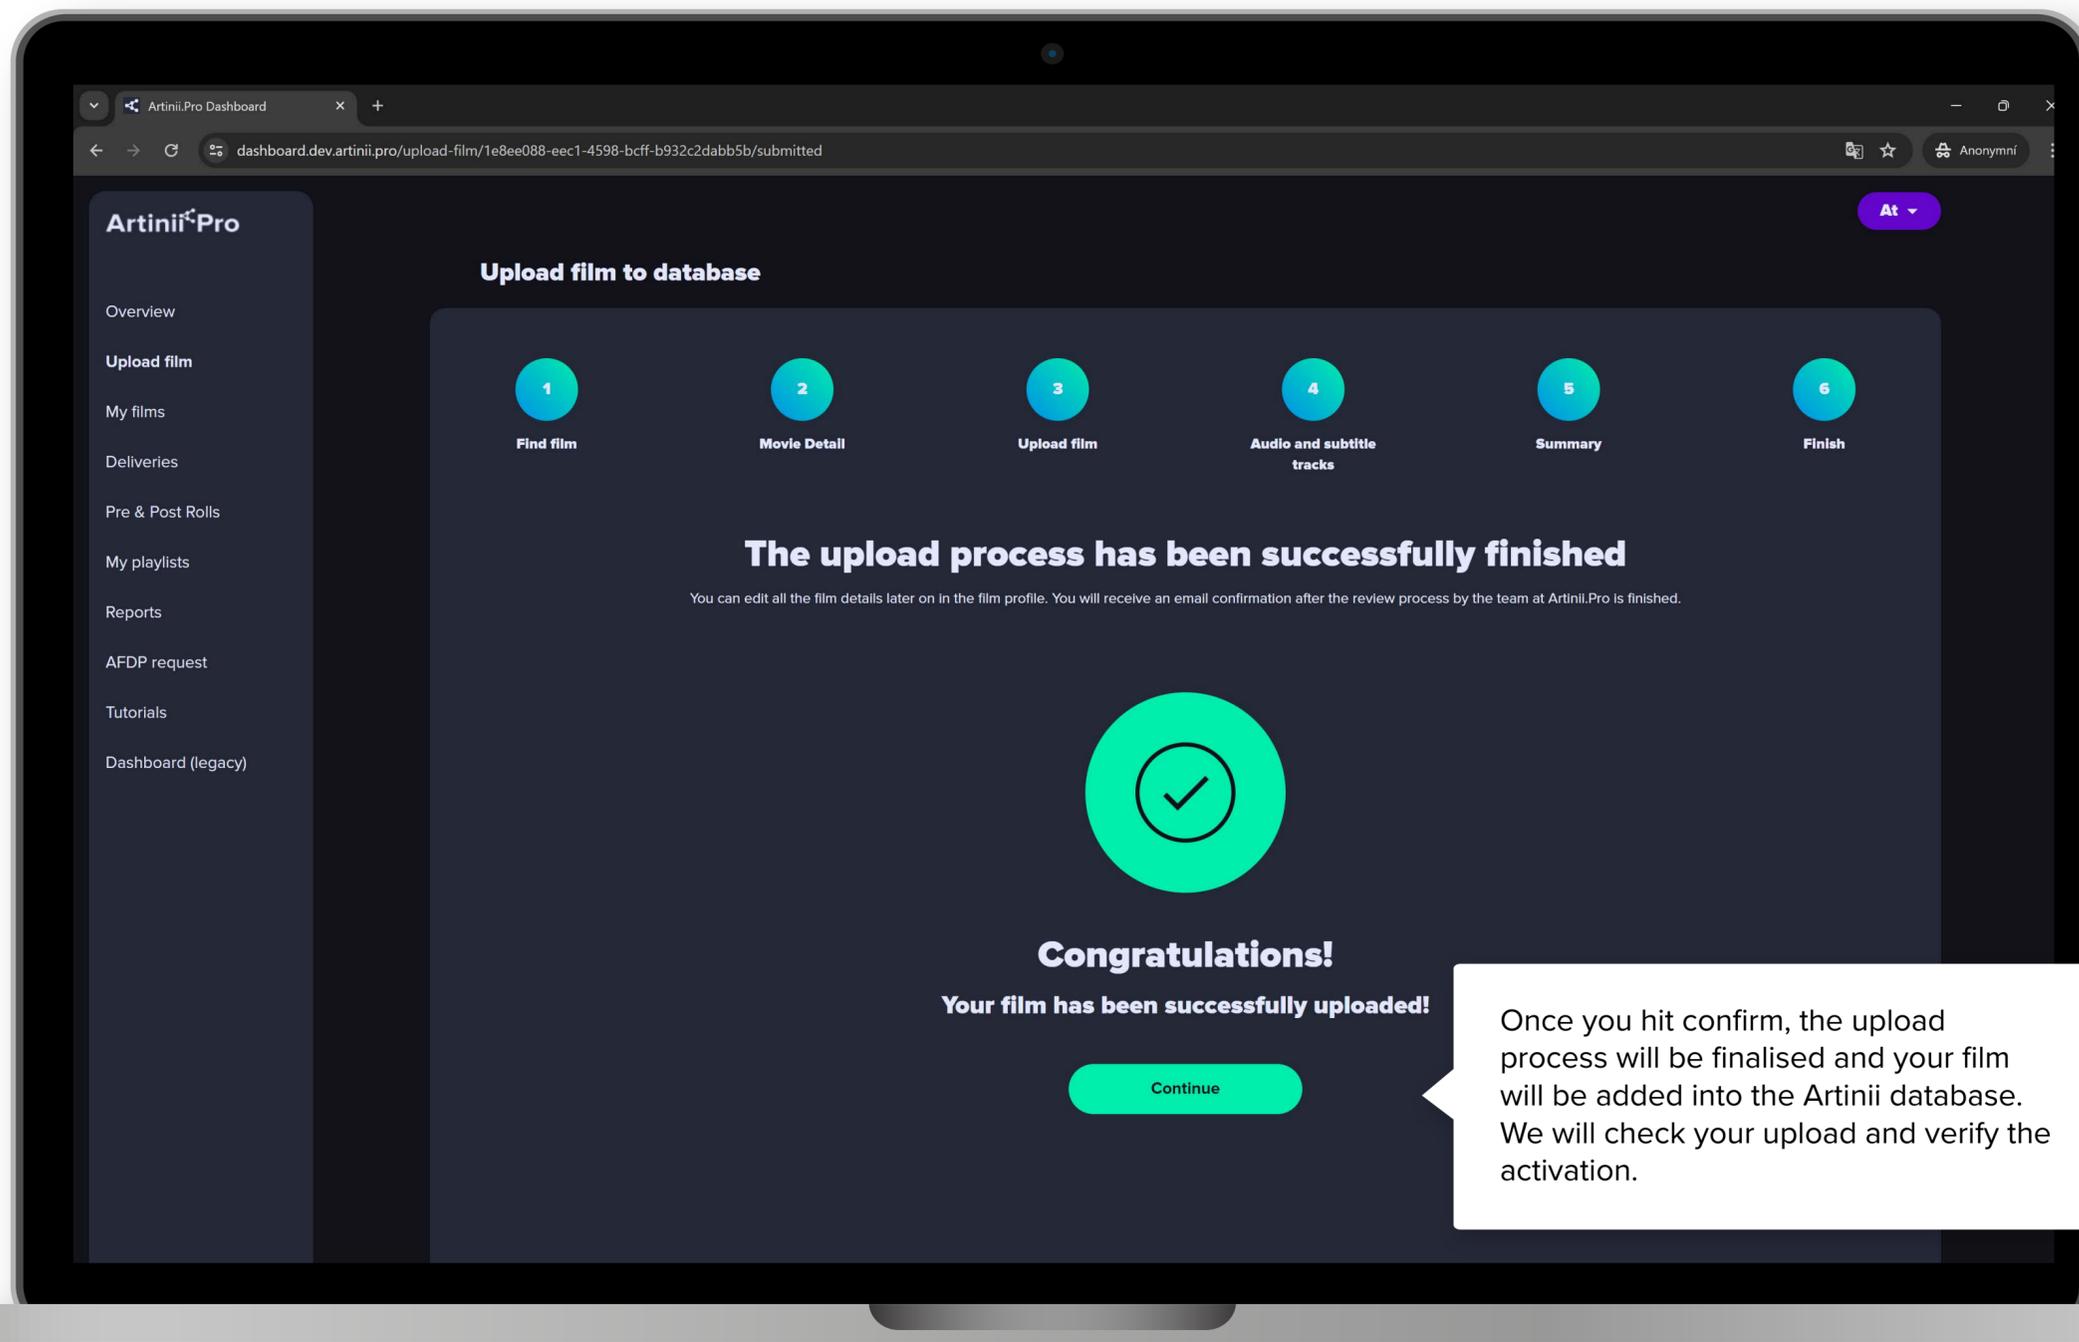

6

Identify audio (and possibly subtitle) tracks by marking the corresponding language.
2 - Stereo, 6 - Surround sound 5.1

It is necessary to correctly assign a corresponding language. You can then choose which audio and subtitle tracks will be available to Artinii customers.

It is also possible to omit some audio/subtitle tracks if needed.

Clik on **Continue**.
